## The Choice of the True Hobbyist.

At American Hobbyist Insurance Agency, we're looking for "true hobbyists" such as the classic sport performance and muscle car enthusiasts who'll choose a rolling frame over the hanging version every time.

With agreed value coverage designed especially for collectors and the performance-obsessed (you know who you are), we provide unsurpassed service with rates that are surprisingly affordable.

For an instant quote, contact us at (800) 395-4835, or visit us at [www.AmericanHobbyist.com](http://www.AmericanHobbyist.com).

Program available in all states except AK, HI, KY, MA, OK & VA. Available in CA to Auto Club members only. Agreed value not available in TX. Underwritten by American Reliable Insurance Company. In TX, underwritten by State and County Mutual Insurance Company. CA Lic #0B92730 Ad code # FF-F1

**If the car matters, the insurance matters.**

## Special Services

### HARNESS MODIFICATIONS

<b>CONVERSION TO INTERNAL REGULATED ALTERNATOR</b> This modification can be applied to a vehicle which is changing to an internally regulated alternator in the stock alternator or generator position. Harnesses will keep their original look and connections wherever possible while at the same time allowing for the proper connection to any of the most popular internally regulated alternators. You must specify the year application of the alternator if you have a used alternator from a stock vehicle please include information as to the specific kind, model and style.	Call for Pricing!
<b>H.E.I. MODIFICATION</b> This modification can be applied to a vehicle which is changing to an H.E.I. (or high energy ignition) distributor system. Harnesses will keep their original look and connections wherever possible while at the same time allowing for the proper connection to any electronic or standard H.E.I. system. This modification will feed the new distributor and ignition system with an un-reduced 12 volts.	Call for Pricing!
<b>RELOCATION OF ALTERNATOR TO PASSENGER SIDE (external regulator)</b> The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a right side (or passenger side) alternator installation.	Call for Pricing!
<b>RELOCATION OF ALTERNATOR TO DRIVER SIDE (external regulator)</b> The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a left side (or driver's side) alternator installation.	Call for Pricing!
<b>RELOCATION OF ALTERNATOR TO PASSENGER SIDE, with internal reg. alternator</b> The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a right side (or passenger side) alternator installation. This modification charge includes part # 34585 (see explanation above) the conversion to an internally regulated alternator so that there is no need to order the part #34585.	Call for Pricing!
<b>RELOCATION OF ALTERNATOR TO DRIVER SIDE, with internal reg. alternator</b> The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a left side (or driver's side) alternator installation.
