HARNESS MODIFICATIONS

CONVERSION TO INTERNAL REGULATED ALTERNATOR

This modification can be applied to a vehicle which is changing to an internally regulated alternator in the stock alternator or generator position. Harnesses will keep their original look and connections wherever possible while at the same time allowing for the proper connection to any of the most popular internally regulated alternators. You must specify the year application of the alternator if you have a used alternator from a stock vehicle please include information as to the specific kind, model and style. Call for Pricing!

H.E.I. MODIFICATION

This modification can be applied to a vehicle which is changing to an H.E.I. (or high energy ignition) distributor system. Harnesses will keep their original look and connections wherever possible while at the same time allowing for the proper connection to any electronic or standard H.E.I. system. This modification will feed the new distributor and ignition system with an un-reduced 12 volts. Call for Pricing!

RELOCATION OF ALTERNATOR TO PASSENGER SIDE (external regulator)

The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a right side (or passenger side) alternator installation. Call for Pricing!

RELOCATION OF ALTERNATOR TO DRIVER SIDE (external regulator)

The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a left side (or driver's side) alternator installation. Call for Pricing!

RELOCATION OF ALTERNATOR TO PASSENGER SIDE, with internal reg. alternator

The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a right side (or passenger side) alternator installation. This modification charge includes part # 34585 (see explanation above) the conversion to an internally regulated alternator so that there is no need to order the part #34585. Call for Pricing!

RELOCATION OF ALTERNATOR TO DRIVER SIDE, with internal reg. alternator
