NOW SHIPPING FROM INDIANA!

**GET YOUR ORDER
FASTER!**

AND SAVE MONEY TOO

We now have a second shipping facility in Brownsburg, Indiana which means most orders will be delivered within 3 business days or less within the U.S. Shipping from both California and Indiana means we're practically within arms reach of you. Orders shipping to the Western third of the country will continue to be shipped from our

MOST ORDERS DELIVERED WITHIIN 3 BUSINESS DAYS OR LESS.

California facility, and shouldn't take more than 3 business days via UPS ground to deliver that perfect chrome trim piece you need for the show on Saturday. Orders shipping to the Mid-West, South and NorthEast portions of the country will now be shipped from our Indiana facility, and again in most instances, can be delivered by UPS within 3 business days. Not only will you save time, don't forget savings in your wallet. Because Danchuk has and always will only charge actual shipping costs, and since most orders will be shipped a shorter distance, the shipping savings are passed on to you. **JUST ANOTHER REASON TO BUY DANCHUK**

HARNESS MODIFICATIONS

CONVERSION TO INTERNAL REGULATED ALTERNATOR

This modification can be applied to a vehicle which is changing to an internally regulated alternator in the stock alternator or generator position. Harnesses will keep their original look and connections wherever possible while at the same time allowing for the proper connection to any of the most popular internally regulated alternators. You must specify the year application of the alternator if you have a used alternator from a stock vehicle please include information as to the specific kind, model and style. Call for Pricing!

H.E.I. MODIFICATION

This modification can be applied to a vehicle which is changing to an H.E.I. (or high energy ignition) distributor system. Harnesses will keep their original look and connections wherever possible while at the same time allowing for the proper connection to any electronic or standard H.E.I. system. This modification will feed the new distributor and ignition system with an un-reduced 12 volts. Call for Pricing!

RELOCATION OF ALTERNATOR TO PASSENGER SIDE (external regulator)

The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a right side (or passenger side) alternator installation. Call for Pricing!

RELOCATION OF ALTERNATOR TO DRIVER SIDE (external regulator)

The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a left side (or driver's side) alternator installation. Call for Pricing!

RELOCATION OF ALTERNATOR TO PASSENGER SIDE, with internal reg. alternator

The modification of relocating the alternator in a factory harness can be done to any properly ordered harness. Use this modification part number in association with a harness that contains the original generator or alternator wiring when you are using a motor (or bracket application) that requires a right side (or passenger side) alternator installation. This modification charge includes part # 34585 (see explanation above) the conversion to an internally regulated alternator so that there is no need to order the part #34585. Call for Pricing!
