

Be sure to read installation instructions for wiper motor before installing wiper switch.  
Determine if your wiper motor is activated by a 12 VOLT SWITCH, OR A GROUND SWITCH.

GROUND ACTIVATED WIPER MOTOR Installation Instructions:

1. Mount wiper switch in a 7/16 dia hole
2. "B" terminal is connected to a good chassis ground.
3. "L" terminal is connected to "LO" speed wire on wiper motor.
4. "P" terminal is connected to "PARK" terminal on wiper motor (if equipped).
5. "H" terminal is connected to "HI" terminal on wiper motor.

BATTERY ACTIVATED WIPER MOTOR Installation Instructions:

1. Mount wiper switch in a 7/16 dia hole
2. "B" terminal is connected to an ignition fed 12 volt power source.
3. "L" terminal is connected to "LO" speed wire on wiper motor.
4. "P" terminal is connected to "PARK" terminal on wiper motor (if equipped).
5. "H" terminal is connected to "HI" terminal on wiper motor.
