

Add on kit for 1967-68 Firebird

In this package you will find several items that are unique to the 1967-1968 Firebird Classic Update kit. These items include front parking lamp pigtails (instructions for their hook up can be found on the 500671 "Bag L" front light installation instruction sheet), heater resistor extension (plug onto 500662 "Bag G" dash harness, sheet #3, item # 13), and high beam headlamp connectors for the quad style headlights used on the Firebirds (instructions for their hook up can be found on the 500671 "Bag L" front light installation instruction sheet).

High Beam Headlamp Connectors

(see 500671 Bag L sheet 5 for installation instructions and connection terminals.)

Heater Resistor Extension

(plug onto dash harness 500662 "Bag G" sheet #3 item #13.)

Parking Lamp Pigtails

(see 500671 Bag L page 5 for instructions, connecting terminals and connectors.)
