

Headlamp Extension Harnesses used in various Ford and Mercury Applications

NOTE: In this kit, you will find the left hand and right hand Headlight Extension Harnesses. They are completely assembled and require no additional work other than plugging them onto the dash/main harness, P/N's 510392 (1966-67 Fairlane and Comet), or 510554 (1962-65 Fairlane & 1962-63 Mercury Meteor) and the Low and High Beam Headlight Bulbs (see specific instructions on P/N 510391 or P/N 510553, pages 12, Figures A).
