

Plug onto
power top
switch.

510477 Power Top Harness Assembly

INSTALLATION INSTRUCTIONS:

1. Plug the 510477 power top harness into the motor connection and the top switch connection.
2. Plug the bare terminal end of the 510477 harness into the accessory connector #2 on sheet 2 of the main dash instructions, 92970240, as shown above maintaining color continuity with red wire in that location.
3. Clip off the first section of the enclosed 30 amp circuit breaker, remove the 30 amp fuse from the "BAT2" location on the fusebox, and replace it with the modified 30 amp circuit breaker.
